global context. An international team of experts employ a unique theoretical framework of media convergence supported by transmedia storytelling, alongside historical and textual analyses, to examine the ways in which webtoons and anime become some of the major sources for transmedia storytelling. The book historicizes

will have a special role for humans in the future. Until last century, the production of botanicals relies to a large degree on wild-collection.

However, the increasing commercial collection, largely unmonitored trade, and habitat loss lead to an incomparably growing pressure on plant populations in the wild. Therefore,
