Electronic Data Interchange (EDI) is the computer-to-computer movement of routine business data in an approved stan-dard format (e.g., ANSI ASC X12, EDIFACT or TRADACOMS). Companies that decide to trade business data with each other using EDI are called trading partners. The trading partners must decide which transaction sets (EDI business docu-

An Introduction to EDI—a DiCentral eBook

EDI or Electronic Data Interchange is the exchange—from computer to computer—of critical business data in a standardized format. Why is EDI important? Just like the standards within the phone industry that enable separate parties to easily communicate with one other, data may also be exchanged between parties using a standard.
