Bender of Worlds is a great second chapter in Hooke's new Star Warrior series. The Sci-Fi RPG style of this book is something new for the author, but I've really enjoyed both books in the series. This book is also a lot longer than most of Hooke's other works, probably between 2-3 times, so you're getting a lot of content in this one.

One man. A secret power that could change the galaxy. Two entire universes in pursuit.Tane crosses the galaxy in a race against time to unlock the hidden powers inside himself before his enemies can capture him. With his companions, he moves between this universe and the next, pursued by the governments of aliens and humans alike. To fail means capture and mindless servitude, as those governments would turn him into a tool for their wars. To succeed means his freedom, and perhaps something more.Hunted and attacked at every turn, eventually Tane finds himself backed into a corner, with no hope of escape. But those who pursue him do not understand that Tane has only scratched the surface of the awesome power inside himself. And if his enemies press too hard, poke too deep, they might not like what rears its ugly head back at them.Yes, they do not understand.The Bender of Worlds has only just begun to awaken.

In a galaxy where the fabric of reality can be bent and shaped by a privileged few, and almost any skill desired is a mere injection away, one young man is thrust into the fight of his life.Tane, a hydroponics engineer with some mean crop gene-splicing skills, decides to get chipped. The operation gives him full control over his autonomic nervous and endocrine systems, plus the ability to install custom memories. All seems well until a couple of days later aliens come knocking at his door. And they aren't the friendly type. Soon Tane finds himself on a frenzied flight across the galaxy with a woman who can warp the very fabric of spacetime, her partner--who'd just as soon kill Tane than protect him--and a starship that calls him snarky pet names. He's on the run not simply from the aliens but the whole damn human space navy.He only wished he knew why.Unfortunately for Tane, the answer might just destroy him. Not to mention the entire known universe.

Five imperiled worlds will be rendered extinct unless five ancient and mysterious beacons can be lit in the wake of erupting wars during which three unlikely heroes make surprising discoveries about their homes and themselves.

Ethan Sutcliff seems like a normal seventeen-year-old—at least that's what he's trying to portray. In a secret society run by the Supernaturals, Ethan is what witches call a Bender. Benders are Witches' Guardians, who are able to control a witches' ability, bend it, or move it away from harming humans. In Ethan's case, he is able to bend the Earth element. But at the age of fifteen, he lost all connection to it, and the reasons behind it could only mean one of two things: His Wielder is either dead, or hiding out somewhere. Alex Burgendorf has been living in her aunt's locket for the past sixteen years with her mother—a Fire Wielder, and her father—a Water Wielder. For sixteen years, her parents vowed to protect her, and they have, as she is the last Earth wielding witch. However, time is running out. Alex must find her Bender, or the fate of the Supernaturals might be at stake

“Bender's willingness to go deep, to burrow down into what's right and wrong about 21st century America and Americans, is a mirror that draws us in and does not allow us to look away." —Los Angeles Times on Refund The National Book Award finalist for Refund returns with a new collection of stories that boldly examines the changes in American culture over the last two years through the increasing presence of violence, bigotry, sexual harassment, and the emotional costs of living under constant threat. In the title story, the competition between two middle school cellists is affected by a shooting at their school, and it is only years later that they realize how the intrusion of violence affected the course of their lives. In ""This Is Who You Are,"" a young girl walks the line between Hebrew school and her regular school, realizing that both are filled with unexpected moments of insight and violence. In ""Three Interviews,"" an aging reporter must contend with her dwindling sense of self and resources, beleaguered by unemployment, which sets her on a path to three increasingly unhinged job interviews. In ""Mrs. America,"" a candidate for local office must confront a host of forces that threaten to undermine her campaign and expose her own role in the dissonance between what America is and what it should be. The New Order explores contemporary themes and ideas, shining a spotlight on the dark corners of our nature, our instincts, and our country.

"Tell me about your dream." Problem is, your therapist, Dr. Mobius, is part of your dream. And that witch's hat appearing on his head is a sure sign that your court-ordered virtual therapy session is being attacked by an Innuit revenge virus, which threatens to loop you into unmapped regions of cyberspace. Franz Kafka meets Lewis Carroll in this hilarious and exciting new adventure about a pre-post-modernist professor on trial for Sexual Misconduct with the wrong student. But not to worry. Here comes LeRoux, the best cowboy on the Grid in a sleek netcraft (The "Exorcizer") with a rescue plan (B) that just might work. Problem is, LeRoux is not really all that real either. Or is he?

"The clever, fast-moving plot features a strong, appealing heroine, Sylvia Plath's poetry, romance, betrayal, and heart-stopping suspense." - Kirkus Reviews "This ambitious sci-fi novel, filled with multiverses and what-ifs... contains complex world building that would appeal to fans of TV's Orphan Black." - Booklist Almost fifteen, Alicia is smart and funny with a deep connection to the poet Sylvia Plath, but she's ultimately failing at life. With a laundry list of diagnoses, she hallucinates different worlds—strange, decaying, otherworldly yet undeniably real worlds that are completely unlike her own with her single mom and one true friend. In one particularly vivid hallucination, Alicia is drawn to a boy her own age named Jax who's trapped in a dying universe. Days later, her long-lost father shows up at her birthday party, telling her that the hallucinations aren't hallucinations, but real worlds; she and Jax are bound by a strange past and intertwining present. This leads her on a journey to find out who she is while trying to save the people and worlds she loves. J.Q. Coyle's The Infinity of You & Me is a wild ride through unruly hearts and vivid worlds guaranteed to captivate.

This collection of stories set in contemporary America--a finalist for the National Book Award--herald a work of singular literary merit by an important writer at the height of her power. We think about it every day, sometimes every hour: Money. Who has it. Who doesn't. How you get it. How you don't. In Refund, Bender creates an award-winning collection of stories that deeply explore the ways in which money and the estimation of value affect the lives of her characters. The stories in Refund reflect our contemporary world--swindlers, reality show creators, desperate artists, siblings, parents--who try to answer the question: What is the real definition of worth? In "Theft," an eighty-year-old swindler, accustomed to tricking people for their money, boards a cruise ship to see if she can find something of true value--a human connection. In "Anything for Money," the creator of a reality show is thrown into the real world when his estranged granddaughter reenters his life in need of a new heart; and in the title story, young artist parents in downtown Manhattan escape the attack on 9/11 only to face a battle over their subletted apartment with a stranger who might have lost more than only her deposit.

From Tamora Pierce, the first book in the Song of the Lioness Quartet, honored with the Margaret A. Edwards Award. “From now on I’m Alan of Trebond, the younger twin. I’ll be a knight.” In a time when girls are forbidden to be warriors, Alanna of Trebond wants nothing more than to be a knight of the realm of Tortall. So she finds a way to switch places with her twin brother, Thom. Disguised as a boy, Alanna begins her training as a page at the palace of King Roald. But the road to knighthood, as she discovers, is not an easy one. Alanna must master weapons, combat, and magic, as well as polite behavior, her temper, and even her own heart. Filled with swords and sorcery, adventure and intrigue, good and evil, Alanna’s first adventure begins—one that will lead to the fulfillment of her dreams and make her a legend in the land.
