Get this from a library! Study guide, Cost accounting : planning and control, seventh edition, Matz, Usry. [Edward J Vanderbeck; Adolph Matz]

Horngren's "Cost Accounting" defined the cost accounting market and continues to innovate today by consistently integrating the most current practice and theory. This acclaimed, number one market-leading book embraces the basic theme of "different costs for different purposes." It reaches beyond cost accounting procedures to consider concepts, analyses, and management. This latest edition of "Cost Accounting" incorporates the latest research and most up-to-date thinking into all relevant chapters. Professional issues related to Management Accounting and Management Accountants are emphasized. Chapter topics cover the accountant's role in the organization to performance measurement, compensation, and multinational considerations. For future accountants who want to enhance their understanding of-and ability to-solve cost accounting problems.

This book provides a thorough coverage of the essentials of cost accounting from a health care perspective. It covers all of the basic tools of cost accounting common to all industries, and uses health care examples. Part I provides the reader with a solid foundation in the essentials of cost accounting. The chapters in this section provide an introduction to costing and cost definitions. Various approaches to product costing and cost allocation are discussed. Breakeven analysis is also covered, as are techniques for making nonroutine decisions. Part II presents a number of specific tools for improved planning and control. The chapters in this

section focus on forecasting and prediction of future costs, budgeting, flexible budgeting, variance analysis, and management control. Part III addresses a number of additional cost accounting tools that can be helpful in generating management information for decision making. Specifically, there are chapters on cost accounting, productivity measurement, inventory, uncertainty, information systems, and performance evaluation. The criticisms of cost accounting and a number of suggested approaches for improvement are discussed in Part IV. The chapters in this part also examine activity-based costing, total quality management, and the future of costing. Each chapter is followed by one or more articles that apply some of the material discussed in the chapter. The last chapter provides a summary of the book.

Cost Accounting for Managerial Planning, Decision Making and Control emphasizes the analysis and evaluation of cost accounting information for managerial planning, control, and decision-making. Our goal is to help students (future managers) understand how cost accounting information adds value to an organization in a highly competitive business environment. The philosophy underlying the development of this book is that providing cost accounting information is primarily a logical process, rather than a procedural one. It is most important that students first understand the basic concepts and objectives, and then gain some experience in applying these concepts in different environments. Through this approach, students will be better equipped to deal with the unforeseen situations they will encounter in professional practice or on professional examinations. This philosophy is evident in each chapter, as basic concepts are presented and then illustrated with examples and a wide variety of homework problems. This text is intended for use in undergraduate and graduate courses in cost accounting at both the basic and advanced levels. It provides a complete and concise coverage of topics commonly included in a basic course, with an in-depth coverage of selected topics more appropriate for an advanced course in cost accounting. Modular coverage of these topics permits the instructor to adapt the text to his or her own preferences for course content. Plus, an extremely clear writing style contributes to the ease with which students will comprehend the contents of each chapter. By emphasizing the differing uses for cost accounting information, our intent is to make the student an intelligent provider, user, and interpreter of this information.

Top experts specializing in hospitality management have contributed articles to this new collection which explains recent developments in accounting and finance. The material is drawn from a combination of fieldwork and practical experience. The managerial emphasis means that the content is fully relevant internationally and not constrained by the legal framework of different countries. Accounting and Finance provides an overview of: *analysis and evaluation of performance *planning methods and techniques *financial information and control *financial management. It also shows how operational analysis can be used as a management tool to improve performance. Techniques for predicting the financial success or failure of hotels are suggested. Research into hotel companies in the US and Europe demonstrates key performance indicators used by hotel managers and financial executives. Other contributors explore the interface between accounting and marketing and human resource management and there is thorough coverage of financial strategy formulation. Readers will also find helpful the section on statistics in the analysis and prediction of cost

behaviour in hotels. Contributors: Raymond Schmidgall (Michigan State University, USA); Debra J. Adams (Bournemouth University, UK); Professor Elisa S. Moncarz (Florida International University, USA); Richard N. Kron (Kron Hospitality Consulting, USA); Angela Maher (Oxford Brookes University, UK); Peter J. Harris (Oxford Brookes University, UK); Geoff S. Parkinson (BDO Stoy Hayward Chartered Accountants, UK); Paul Fitz-John (Bournemouth University, UK); Paul Collier (University of Exeter, UK); Professor Alan Gregory (University of Glasgow, UK); Tracy A. Jones (Cheltenham and Gloucester College of Higher Education, UK); Jacqueline Brander Brown (The Manchester Metropolitan University, UK); Nina J. Downie (Oxford Brookes University, UK); Catherine L. Burgess (Oxford Brookes University, UK); Ian C. Graham (Holiday Inn Worldwide, Belgium); Howard M. Field (International Hotel and Leisure Associates, UK); Professor Paul Beals (Canisius College, USA); Frank J. Coston (Pannell Kerr Forster Associates, UK).
