In the 21st century, women have been a growing presence in the muscle car world, exhibiting classic cars at automotive events and rumbling to work in modern Mustangs, Camaros and Challengers. Informed by the experiences of 88 female auto enthusiasts, this book highlights women's admiration and passion for American muscle, and reveals how restoring, showing and driving classic and modern cars provides a means to challenge longstanding perceptions of women drivers and advance ideas of identity and gender equality.

A renowned Jaguar expert offers a comprehensive historical review of the highly collectable XJS series of coupes, cabriolets and convertibles with particular emphasis on quality evaluation, maintenance and upgrades. Jaguar XJS takes the reader through the 20-year history of a model series which, after a lukewarm reception in 1975 by Jaguar enthusiasts who expected a replacement for the famed E-Type, matured through many evolutions into some of the most stylish cars ever to wear the Jaguar badge, earning along the way an enviable reputation on the international motor racing scene.

The Cadillac story is more than the story of a car company. It is, in many ways, the story of the American automobile industry itself—which, as much as any industry, drove America's growth in the twentieth century and defined who we are as a people. For generations of Americans, Cadillac epitomized expansive prosperity. This illustrated history of Cadillac presents all the triumphs and failures of the marque's last sixty years; from the good times, through the disastrous 1980s, and up to the current reconstitution of the brand.
