In Critical Race Feminism, Anita Hill, Lani Guinier, Regina Austin, Patricia Williams, Emma Coleman Jordan (Anita Hill's lawyer) and over three dozen other women seek to ensure that their perspectives on race, power, law, and politics in America will never again be distorted or ignored. Revealing how the historical experiences and contemporary realities of women of color are profoundly influenced by a legacy of racism and sexism that is neither linear nor logical, the book offers a panoramic perspective on American women's lives, illustrating how women of color derive strength from oppression. Both a forceful statement and a platform, the volume addresses an ambitious range of subjects from life in the workplace, motherhood, and parenting to sexual harassment, the O.J. Simpson trial, and criminal justice. Extending beyond national borders, it also takes on such global issues as female genital mutilation with sensitivity and eloquence. In a foreword that discusses relations between black women and men in the wake of the Million Man March, Derrick Bell argues that there is a singular focus, and thus a unique power, in Critical Race Feminism that makes this anthology relevant for women and men of all colors.

Critical Race, Feminism, and Education provides a transformative next step in the evolution of critical race and Black feminist scholarship. Focusing on praxis, the relationship between the construction of race, class, and gender categories and social justice outcomes is analyzed. An applied transdisciplinary model - integrating law, sociology, history, and social movement theory - demonstrates how marginalized groups are oppressed by ideologies of power and privilege in the legal system, the education system, and the media. Pratt-Clarke documents the effects of racism, patriarchy, classism, and nationalism on Black females and males in the single-sex school debate.

What is a Canadian critical race feminism? As the contributors to this book note, the interventions of Canadian critical race feminists work to explicitly engage the Canadian state as a white settler society. The collection examines Indigenous peoples within the Canadian settler state and Indigenous women within feminism; the challenges posed by the settler state for women of colour and Indigenous women; and the possibilities and limits of an anti-colonial praxis. Critical race feminism, like critical race theory more broadly, interrogates questions about race and gender through an emancipatory lens, posing fundamental questions about the persistence if not magnification of race and the "colour line" in the twenty-first century. The writers of these articles whether exploring campus politics around issues of equity, the media's circulation of ideas about a tolerant multicultural and feminist Canada, security practices that confine people of colour to spaces of exception, Indigenous women's navigation of both nationalism and feminism, Western feminist responses to the War on Terror, or the new forms of whiteness that persist in ideas about a post-racial world or in transnational movements for social justice insist that we must study racialized power in all its gender and class dimensions. The contributors are all members of Researchers and Academics of Colour for Equity.

Anita Hill, Angela Harris, Lani Guinier, and others address a range of subjects on the legal status of women of color In *Critical Race Feminism*, Anita Hill, Lani Guinier, Regina Austin, Patricia Williams, Emma Coleman Jordan (Anita Hill's lawyer) and over three dozen other women seek to ensure that their perspectives on race, power, law, and politics in America will never again be distorted or ignored. Revealing how the historical experiences and contemporary realities of women of color are profoundly influenced by a legacy of racism and sexism that is neither linear nor logical, the book offers a panoramic perspective on American women's lives, illustrating how women of color derive strength from oppression. Its opponents call it part of "the lunatic fringe," a justification for "black separateness," "the most embarrassing trend in American publishing." "It" is Critical Race Theory. But what is Critical Race Theory? How did it develop? Where does it stand now? Where should it go in the future? In this volume, thirty-one CRT scholars present their views on the ideas and methods of CRT, its role in academia and in the culture at large, and its past, present, and future. Critical race theorists assert that both the procedures and the substance of American law are structured to maintain white privilege. The neutrality and objectivity of the law are not just unattainable ideals; they are harmful actions that obscure the law's role in protecting white supremacy. This notion—so obvious to some, so unthinkable to others—has stimulated and divided legal thinking in this country and, increasingly, abroad. The essays in *Crossroads, Directions, and a New Critical Race Theory*—all original—address this notion in a variety of helpful and exciting ways. They use analysis, personal experience, historical narrative, and many other techniques to explain the importance of looking critically at how race permeates our national consciousness.

An authoritative and cutting-edge collection of theoretically grounded and empirically informed essays exploring the contemporary terrain of race and racism.

In this wide-ranging second edition, Richard Delgado and Jean Stefancic bring together the finest, most illustrative, and highly accessible articles in the fast-growing legal genre of Critical Race Theory. In challenging orthodoxy, questioning the premises of liberalism, and debating sacred wisdoms, Critical Race Theory scholars writing over the past few years have indelibly changed the way America looks at race. This edition contains treatment of all the topics covered in the first edition, along with provocative and probing questions for discussion and detailed suggestions for additional reading, all of which set this fine volume apart from the field. In addition, this edition contains five new substantive units -- crime, critical race practice, intergroup tensions and alliances, gay/lesbian issues, and transcending the black-white binary paradigm of race. In each of these areas, groundbreaking scholarship by the movement's founding figures as well as the brightest new stars provides immediate entre to current trends and developments in critical civil rights thought.

Now in its second edition, the acclaimed anthology *Critical Race Feminism* presents over 40 readings on the legal status of women of color by leading authors and scholars such as Anita Hill, Lani Guinier, Kathleen Neal Cleaver, and Angela Harris. This second edition features 25 new essays and a new introduction by Adrien Katherine Wing. *Critical Race Feminism* gives voice to African American, Latina, Asian, Native American, and Arab women, both heterosexual and lesbian. Both a forceful statement and a platform for change, the anthology addresses an ambitious range of subjects, from life in the workplace and motherhood to sexual harassment, domestic violence, and other criminal justice issues. Extending beyond national borders, the volume tackles global issues such as the rights of Muslim women, immigration, multiculturalism, and global capitalism. Revealing how the historical experiences and contemporary realities of women of color are profoundly influenced by a legacy of racism and sexism that is neither linear nor logical, *Critical Race Feminism* serves up a panoramic perspective, illustrating how women of color can find strength in the face of oppression.
