PK SuperPulse (744000) The Olympus PK SuperPulse Technology Workstation economically improves surgeon efficiency by powering a variety of devices that cut, coagulate, and seal tissue, minimizing blood loss and shortening procedure times. PK Technology provides unique, pulsed, low-voltage RF energy to resect rapidly at low temperatures.

---

PK SuperPulse (744000) | Olympus America | Medical

PK® Technology allows the surgeon, rather than the device or system, to choose how long energy is applied. It eliminates the frustrating lag between generator and desired tissue effect with instantaneous, consistent energy delivery. Other systems predict and dictate an end-point that the surgeon cannot override.
