Explore Dublin's hidden history, from the age of the Vikings to the present day, with this bestselling short history of the city. It's the perfect tour companion. Dublin started as a Viking trading settlement in the middle of the tenth century. Location was the key, as it commanded the shortest crossing to a major port in Britain. By the time the Normans arrived in Ireland in the twelfth century, this was crucial: Dublin maintained the best communications between the English

crown and its new lordship in Ireland. The city first developed on the rising ground south of the river where Christ Church now is and the English established their principal citadel, Dublin Castle, in this area. Throughout the medieval and early modern periods, the city's importance was entirely ecclesiastical and strategic. It was not a centre of learning, or fashion or commerce. The foundation of Trinity College in 1592 was a landmark event but the city did not really develop until the long peace of the eighteenth century. Then the series of fine, wide Georgian streets and noble public buildings that are Dublin's greatest boast were built. A semi-autonomous parliament of the Anglo-Irish elite provided a focus for social life and the city flourished. The Act of Union of 1800 saw Ireland

become a full part of the metropolitan British state, a situation not reversed until 1922. The Union years saw Dublin decline. Fine old houses were gradually abandoned by the aristocracy and became hideous tenement warrens. The city missed out on the Industrial Revolution. By the time Joyce immortalised it, it had become 'the centre of paralysis' in his famous phrase. Independence restored some of its natural function but there was still much poverty and shabbiness. The 1960s boom proved to be a false dawn. Only since the 1990s has there been real evidence of a city reinventing and revitalising itself.

Two particular dates dominate popular imaginings of Dublin: 16 June 1904 when James Joyce and Nora Barnacle first walked out together; and Easter Monday 1916, when Pearse and Connolly led a small force against the British and began the struggle that led through civil war to independence for part of Ireland. Siobhn Kilfeather finds the legacy of the past undergoing a series of transformations in the vibrant atmosphere of contemporary Dublin.

As rich and diverse as its subject, Dickson 's magisterial history brings 1,400 years of Dublin vividly to life: from its medieval incarnation through the neoclassical eighteenth century,

"Siobhan Kilfeather explores Ireland's capital city and walks the streets immortalized by James Joyce's Ulysses. Kilfeather takes readers through one thousand years of Dublin's history and examines in detail its architecture, statuary, painting, and writing"--Back cover.

For nearly 150 years, the wretched, squalid tenements of Dublin were widely judged to be the worst slums in all of Europe. By the 1930s, 6,400 tenements were occupied by almost 112,000 tenants. Some districts had up to 800 people to the acre, up to 100 occupants in one building, and twenty family members crammed into a single tiny room. It was a hard world of hunger, disease, high mortality,

unemployment, heavy drinking, prostitution and gang warfare. But despite their hardship, the tenement poor enjoyed an incredibly closely knit community life in which they found great security and indeed, happiness. As one policeman recalls from over half a century ago, they were ‘ extraordinarily happy for people who were so savagely poor ’ .
