Joe Hill (son of King) is on his way to being a great supernatural writer as long as he can conquer the curse handed down from his father. The novel itself contains a little supernatural thriller, a little romance, and a lot of mystery. Unfortunately, he can't hold the tensions together which blends the three together like a bad cocktail.

Now a major Hollywood film starring Daniel Radcliffe: read it first, if you dare ... Ignatius Perrish spent the night drunk and doing terrible things. He woke up the next morning with one hell of a hangover, a raging headache ... and a pair of horns growing from his temples. Once, Ig lived the life of the blessed: born into privilege, the second son of a renowned American musician, and the younger brother of a rising late-night TV star. Ig had security and wealth and a place in his community. Ig had it all, and more - he had the love of Merrin Williams, a love founded on shared daydreams, mutual daring, and unlikely midsummer magic. Then beautiful, vivacious Merrin was gone - raped and murdered, under inexplicable circumstances - with Ig the only suspect. He was never tried for the crime, but in the court of public opinion, Ig was and always would be guilty. Now Ig is possessed with a terrible new power - with just a touch he can see people's darkest desires - to go with his terrible new look, and he means to use it to find the man who killed Merrin and destroyed his life. Being good and praying for the best got him nowhere. It's time for a little revenge: it's time the devil had his due.

From the New York Times bestselling author of Heart-Shaped Box and NOS4A2, a relentless supernatural thriller that runs like Hell on wheels . . . Merrin Williams is dead, slaughtered under inexplicable circumstances, leaving her beloved boyfriend Ignatius Perrish as the only suspect. On the first anniversary of Merrin's murder, Ig spends the night drunk and doing awful things. When he wakes the next morning he has a thunderous hangover . . . and horns growing from his temples. Ig possesses a terrible new power to go with his terrible new look—a macabre gift he intends to use to find the monster who killed his one true love. Being good and praying for the best got him nowhere. Now it's time for revenge . . . It's time the devil had his due . . .

Joe Hill's critically acclaimed, New York Times bestselling, Bram Stoker Award-winning debut chiller, Heart-Shaped Box, heralded the arrival of new royalty onto the dark fantasy scene. With Horns, he polishes his well-deserved crown. A twisted, terrifying new novel of psychological and supernatural suspense, Horns is a devilishly original triumph for the Ray Bradbury Fellowship recipient whose story collection, 20th Century Ghosts, was also honored with a Bram Stoker Award—and whose emotionally powerful and macabre work has been praised by the New York Times as, "wild, mesmerizing, perversely witty ...a Valentine from hell."

Judas Coyne is a collector of the macabre: a cookbook for cannibals . . . a used hangman's noose . . . a snuff film. An aging death-metal rock god, his taste for the unnatural is as widely known to his legions of fans as the notorious excesses of his youth. But nothing he possesses is as unlikely or as dreadful as his latest purchase, an item he discovered on the Internet: I will sell my stepfather's ghost to the highest bidder . . . For a thousand dollars, Jude has become the owner of a dead man's suit, said to be haunted by a restless spirit. But what UPS delivers to his door in a black heart-shaped box is no metaphorical ghost, no benign conversation piece. Suddenly the suit's previous owner is everywhere: behind the bedroom door . . . seated in Jude's restored Mustang . . . staring out from his widescreen TV. Waiting—with a gleaming razor blade on a chain dangling from one hand . . .

Finalist for the Chicago Review of Books Fiction Award, Dan Chaon's Best of 2017 pick in Publishers Weekly, one of Vol. 1 Brooklyn's Best Books of 2017, a BOMB Magazine "Looking Back on 2017: Literature" Pick, and one of Vulture's 10 Best Thriller Books of 2017, Jac Jerns's The Grip of It is a chilling literary horror novel about a young couple haunted by their newly purchased home. Touring their prospective suburban home, Julie and James are stopped by a noise. Deep and vibrating, like throat singing. Ancient, husky, and rasping, but underwater. "That's just the house settling," the real estate agent assures them with a smile. He is wrong. The move—prompted by James's penchant for gambling and his general inability to keep his impulses in check—is quick and seamless; both Julie and James are happy to start afresh. But this house, which sits between a lake and a forest, has its own plans for the unsuspecting couple. As Julie and James try to establish a sense of normalcy, the home and its surrounding terrain become the locus of increasingly strange happenings. The framework— claustrophobic, riddled with hidden rooms within rooms—becomes unrecognizable, decaying before their eyes. Stains are animated on the wall—contracting, expanding—and map themselves onto Julie's body in the form of painful, grisly bruises. Like the house that torments the troubled married couple living within its walls, The Grip of It oozes with palpable terror and skin-prickling dread. Its architect, Jac Jerns, meticulously traces Julie and James's unsettling journey through the depths of their new home as they fight to free themselves from its crushing grip.
