Promotion Of
Indigenous Food
Production And
Processing

Processing Practices

Using personal
narratives collected
during several years
of field research in
Kenya, Wane
demonstrates how

Online Library Indigenous

Embu women use proverbs, fables, and folktales to preserve and communicate their world-view, knowledge, and cultural norms. She shows how this process preserves Indigenous knowledge devalued by the colonial and post-colonial educational systems,

Online Library Indigenous

as well as the gendered dimension of the transmission process.

The Jie people of northern Uganda and the Turkana of northern Kenya have a genesis myth about Nayeche, a Jie woman who followed the footprints of a gray bull across the

Online Library Indigenous

waterless plateau and
who founded a
"cradle land" in the
plains of Turkana. In
Remembering
Nayeche and the
Gray Bull Engiro,
Mustafa Kemal
Mirzeler shows how
the poetic journey of
Nayeche and the gray
bull Engiro and their
metaphorical return
during the Jie harvest

Online Library Indigenous

rituals gives rise to stories, imagery, and the articulation of ethnic and individual identities. Since the 1990s, Mirzeler has travelled to East Africa to apprentice with storytellers. Remembering Nayeche and the Gray Bull Engiro is both an account of his experience listening

Online Library Indigenous

to these storytellers and of how oral tradition continues to evolve in the modern world. Mirzeler's work contributes significantly to the anthropology of storytelling, the study of myth and memory, and the use of oral tradition in historical studies.

Online Library

Indigenous

This volume explores what it means to be an African in a political context in which such people are called upon to reassert the value of identifying as African in order to counter the effects of neo-colonialism. This includes affirming visions of what Africanness can offer

Online Library Indigenous

in terms of peoples
being-in-the-world.
The book also
discusses the benefits
associated with
working together as
people of African
ancestry, as well as
the evocation of
Ubuntu. It focuses on
the possibility of
revisiting the urge for
African rebirth, and
shows how the idea of

Online Library Indigenous

Pan-Africanism helps to keep this dream alive. It engages with a range of ideas that build on the Pan-African philosophy for grounding African cultural and political rebirth, and will contribute to debunking the mindset that prompts many African youths and adults to risk it all

Online Library Indigenous

for an apparently
better life on the other
side of the Atlantic
Ocean.

Food

This edited volume
analyzes African
knowledge production
and alternative
development paths of
the region. The
contributors
demonstrate ways in
which African-

Online Library Indigenous

centered knowledge
refutes stereotypes
depicted by Euro-
centric scholars and,
overall, examine
indigenous African
contributions in global
knowledge production
and development.
The project provides
historical and
contemporary
evidences that
challenge the

Online Library Indigenous

dominance of Euro-centric knowledge, particularly, about Africa, across various disciplines. Each chapter engages with existing scholarship and extends it by emphasizing on Indigenous knowledge systems in addition to future indicators of African knowledge

Online Library Indigenous

production.

Knowledge

Indigenous knowledge systems (IKS) are a combination of knowledge systems encompassing technology; social, economic, and philosophical learning; or educational, legal, and governance systems. The lack of

Online Library Indigenous

documentation of these systems presents a problem as the knowledge is fading away over time. In response, it is essential that policies and strategies are undertaken to ensure that these systems are protected and sustained for generations to come.

The Handbook of

Online Library Indigenous

Research on
Protecting and
Managing Global
Indigenous
Knowledge Systems
is a comprehensive
reference source that
works to preserve
indigenous knowledge
systems through
research. Focusing on
key concepts such as
tools of indigenous
knowledge

Online Library Indigenous

management and African indigenous symbols, the book preserves and promotes indigenous knowledge through research and fills the void staff and students within the field of indigenous knowledge systems face with the current lack of research and resources. This book

Online Library Indigenous

is ideal for university students, lecturers, researchers, academicians, policymakers, historians, sociologists, and anyone interested in the field of indigenous knowledge systems.

This handbook explores the evolution of African education in

Online Library

Indigenous

historical perspectives
as well as the
development within its
three

systems—Indigenous,
Islamic, and Western
education models—and
how African societies
have maintained and
changed their
approaches to
education within and
across these systems.

African education

Online Library Indigenous

continues to find itself at once preserving its knowledge, while integrating Islamic and Western aspects in order to compete within this global reality. Contributors take up issues and themes of the positioning, resistance, accommodation, and transformations of

Online Library

Indigenous

indigenous education in relationship to the introduction of Islamic and later Western education. Issues and themes raised acknowledge the contemporary development and positioning of indigenous education within African societies and provide understanding of how

Online Library

Indigenous

indigenous education works within individual societies and national frameworks as an essential part of African contemporary society.

Knowledge systems are an essential aspect to the preservation of a community's culture. In developing

Online Library Indigenous

African Knowledge Production Food Processing Practices Among Kenyan Rural Women

countries, this
community-based
knowledge has
significant influence
on such things as
decision making and
problem solving. The
Handbook of
Research on Social,
Cultural, and
Educational
Considerations of
Indigenous
Knowledge in

Online Library Indigenous

Developing Countries
is an authoritative
reference source for
the latest scholarly
research on the
importance of
knowledge and value
systems at the
community level and
ways indigenous
people utilize this
information.

Highlighting impacts
on culture and

Online Library Indigenous

education in
developing nations,
this book is ideally
designed for
researchers,
academicians, policy
makers, students, and
professionals
interested in
contemporary
debates on
indigenous knowledge
systems.

Online Library Indigenous

This edited volume examines the challenges of globalization in light of the need to revisit and reconceptualize the notion of Pan-Africanism. The first part of the book examines globalization and Africa's socioeconomic and political development

Online Library Indigenous

in this century by
using the Diopian
Pluridisciplinary
Methodology. This
approach is
imperative because
the challenges faced
by Africa vis-à-vis
globalization and
socioeconomic
development are so
multiplexed that no
single disciplinary
approach can

Online Library Indigenous

adequately analyze
them and yield
substantive policy
recommendations.

The chapters in the
second part analyze
the imperatives for
Africa's global
knowledge
production,
development, and
economic
transformation in the
face of the pressures

Online Library Indigenous

of globalization. Part two demonstrates an urgent need for Africa's significant participation in the global knowledge economy in order to meet the continent's modern transformation and development aspirations. The final part examines lessons from old and

Online Library Indigenous

new Pan-Africanism
and how they can be
utilized to deal with
the challenges
emanating from the
forces of modern
globalization. With its
multidisciplinary
approach to a wide
range of pressing,
modern issues for the
African content, this
book is essential
reading for scholars

Online Library Indigenous

across the social sciences interested in where Africa is now and where it should go in this increasingly globalized world.

This book serves the purpose of documenting and promoting African experiences on sustainable development, which

Online Library Indigenous

encompasses both, formal and non-formal education.

Sustainable development is very important to Africa, but there is a paucity of publication which documents and promotes experiences from African countries. Due to their complexity, the interrelations between

Online Library Indigenous

social, economic and political factors related to sustainable development, especially at universities, need to be better understood. There is also a real need to showcase successful examples of how African institutions are handling their sustainability

Online Library Indigenous

challenges. It is
against this
background that this
book has been
produced. It is a truly
interdisciplinary
publication, useful to
scholars, social
movements,
practitioners and
members of
governmental
agencies and private
companies,

Online Library Indigenous

undertaking research
and/or executing
projects focusing on
sustainability from

across Africa. As

African nations strive
to pursue the UN
Sustainable

Development Goals, it
is imperative to cater
for the information
needs seen across
the continent and
foster the

Online Library Indigenous

dissemination of experiences and case studies, which may support both, on-going and future efforts. The scope of the book is deliberately kept wide, and we are looking for contributions across the spectrum of sustainable development from business and

Online Library Indigenous

economics, to arts
and fashion,
administration,
environment,
languages and media
studies.

Global interest in
indigenous studies
has been rapidly
growing as
researchers realize
the importance of
understanding the

Online Library

Indigenous

impact indigenous communities can have on the economy, development, education, and more.

As the use, acceptance, and popularity of indigenous knowledge increases, it is crucial to explore how this community-based knowledge provides deeper insights,

Online Library Indigenous

understanding, and
influence on such
things as decision
making and problem
solving. Indigenous
Studies:

Breakthroughs in
Research and
Practice examines the
politics, culture,
language, history,
socio-economic
development,
methodologies, and

Online Library Indigenous

contemporary
experiences of
indigenous peoples
from around the
world, as well as how
contemporary issues
impact these
indigenous
communities on a
local, national, and
global scale.

Highlighting a range
of topics such as local
narratives,

Online Library Indigenous

intergenerational
cultural transfer, and
ethnicity and identity,
this publication is an
ideal reference source
for sociologists,
policymakers,
anthropologists,
instructors,
researchers,
academicians, and
graduate-level
students in a variety
of fields.
