no doubt partly

due to its

presence in

World War II.

The Jeep

when a platform

of more than

five decades.

The YJ was the

first Chrysler
release after it
purchased AMC in
the mid-1980s,
and it was aimed
at taming the
original CJ for
more comfort
and, arguably, a
larger audience.
The TJ that
followed next
was an

update, significant in that it featured a coil spring suspension and the celebrated return of round headlights, for a more traditional look compared to the square lights of the YJ. In Jeep TJ 1997-2006:

by the longer-

models

introduced in

1976, the CJ
