When Meriwether Lewis, William Clark, and the "Corp of Discovery" left St. Louis, Missouri, on May 21, 1804, their mission was to explore the vast, unknown territory acquired a year earlier in the Louisiana Purchase. The travelers hoped to find a waterway that crossed the western half of the United States. They didn't. However, young readers will love this true-life adventure tale of the two-year journey that finally brought the explorers to the Pacific Ocean.

chart a route from St. Louis to the Pacific Ocean. All the crew but one volunteered for the mission. York, the enslaved man taken on the journey, did not choose to go. Slaves did not have choices. York's contributions to the expedition, however, were invaluable. The captains came to rely on York's judgement, determination, and peacemaking role with the American Indian nations they encountered. But as York's independence and status rose on the journey, the question remained what status he would carry once the expedition was over. This is his story."--Provided by publisher.

When the Corps of Discovery left the vicinity of St. Louis in 1804 to explore the American West, they had only sketchy knowledge of the terrain that they were to cross—existing maps often contained large blank spaces and wild inaccuracies. William Clark painstakingly mapped every mile of the journey, drawing from both direct observation and from the reports of Indians and a few fur traders. On their return Lewis and Clark directed the execution of new maps detailing with remarkable accuracy the features of the country that they had traversed.

This picture book chronicles the expedition across the American West conducted by Meriwether Lewis and William Clark, spawned by President Thomas Jefferson's Louisiana Purchase of 1803. Full color.
