Tailored for upper-level undergraduate and MBA students, Assael's Consumer Behavior applies behavioral concepts to market strategy (domestic and international) with special emphasis on web-related issues and applications. Assael presents the content from a managerial perspective, focusing on decision making as the framework for understanding consumer behavior. The text also features a unique, three-chapter Marketing Action section, covering marketing communications, marketing segmentation and micromarketing, as well as consumer rights and social responsibility.

This paper highlights that the 1978 World Bank Annual Meeting, held in Washington, D.C. during September 25–28, 1978, emphasized that greater efforts need to be made by both developed and developing countries, on domestic as well as international fronts, to stimulate lagging growth and to improve the well-being of the poorest. Just as developing countries agreed that economic takeoff was based as much on their own internal policies as on the external environment, the industrialized nations acknowledged that their own economic well-being was more closely linked to the growth of the Third World.
