Modern Carpentry: Essential Skills for the Building Trade, Workbook [Wagner, Willis H., Smith, Howard Bud] on Amazon.com. *FREE* shipping on qualifying offers. Modern Carpentry: Essential Skills for the Building Trade, Workbook

The 11th Edition of Modern Carpentry - Essential Skills for the Building Trades includes two new chapters, covering framing with steel and the building of decks and porches, as well as numerous text and illustration changes to depict current materials and practices. The text provides detailed coverage of all aspects of light frame construction, including site preparation and layout; foundations; framing and sheathing; roofing; windows and doors; exterior finish; stairs; cabinetry, and finishing procedures for interior walls, floors, and ceilings. Beyond a solid discussion of building basics, Modern Carpentry covers special topics such as constructing stairs, chimneys, fireplaces, and decks. Systems-built (prefabricated) houses, remodeling, cabinet installation, solar construction, and painting and decorating are also covered. To familiarize carpentry students with other aspects of the building trades, the text includes chapters on mechanical systems: electrical, plumbing, and HVAC. Throughout the text, safe working practices are emphasized, and special attention is paid to proper use of the latest tools, materials, and prefabricated components. * Chapters are arranged in a logical sequence, similar to the order in which the phases of building construction are performed. * Includes many step-by-step procedures set as boxed features. * Uses clear, nontechnical language and detailed illustrations to provide the most easy-to-understand presentation of any carpentry book on the market. * Provides useful career information in a dedicated chapter and more than 20 "On-the-Job" features throughout the book that describe specific building trades occupations. * Provides detailed coverage of both residential and light commercial construction. This bundle includes a copy of the Student Text and an Online Text (6-Year Classroom Subscription). Students can instantly access the Online Text with browser-based devices, including iPads, netbooks, PCs, and Mac computers. With G-W Online Textbooks, students easily navigate linked table of contents, search specific topics, quickly jump to specific pages, enlarge for full-screen reading mode, and print selected pages for offline reading.

Online Library Modern Carpentry 11th Edition Answers Packet

Organized to follow the textbook on a chapter-by-chapter basis, providing questions to help the student review the material presented in the chapter. This supplement is a consumable resource, designed with perforated pages so that a given chapter can be removed and turned in for grading or checking.

Activities are designed to help students review content and develop critical thinking skills. A wide variety of activities is provided for various learning styles.

Looking for a simpler, more natural way of working with wood? Create beautiful wooden objects from fresh green wood by becoming skilled in the crafts of whittling, ax-based furniture making, turning, and weaving. With green woodworking there's no need for costly materials and machinery. All you need to begin crafting is a log, an ax, and a hand knife. Starting with selecting and splitting your very first log, let Woodcraft show you all the techniques of green woodworking and guide you step by step through a series of rewarding projects. Learn to carve your own spoons, bowls, shrink boxes, and other objects; construct simple pieces of furniture, such as stools and side tables; turn wood on a pole lathe; and weave with willow rods and birch bark. Woodcraft brings up-to-date a newly resurgent folk craft and makes it truly accessible to all--no workshop required. So, what are you waiting for? Get in touch with nature and find harmony working with your hands.

Refine the skills needed to become an accomplished professional carpenter with the in-depth coverage and practical applications found in Carpentry, 6E. This popular bestseller by well-known expert Floyd Vogt presents the intricate system of contemporary light frame building construction using step-by-step procedures. CARPENTRY, 6E follows the logical path of a residential project, using thorough explanations and easy-to-follow diagrams to explore building plans, sitework and layout, footings and foundations, framing, interior and exterior surfaces, cabinetry, and more. This edition blends traditional construction techniques with today's latest practices, including contemporary safety tools, alternative construction, such as concrete forms, and green building techniques. This edition also introduces more commercial drawings and construction. Photo-realistic drawings showcase concepts and procedures with detailed, easy to understand information. The new online CourseMate provides interactive learning tools to further ensure carpentry success. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

This is the eBook of the printed book and may not include any media, website access codes, or print supplements that may come packaged with the bound book. Mathematics for Carpentry and the Construction Trades, Third Edition, offers a unique approach based on the authors' experience in building construction and applied education. Loaded with photographs and detailed drawings, the text illustrates the underlying mathematics in each step of the building process. The text's problems, infused with the authors' real industry experience, provide students with relevant examples of problems they will face in the construction and carpentry trades. Problems include step-by-step summary explanations of their solutions with the necessary steps highlighted for easy identification. After giving students a solid foundation in math, the text then leads them through the steps of a construction project and applying the mathematical skills involved in completing the project.
