Meghan Wier is known for melding her professional style, keen business sense, and desire to share her work and life experiences with others. An introvert/forced-extrovert, her relationship-building savvy and strong marketing skills have made her a recognized expert in building through networking. Ms. Wier is an influential authority on business networking and marketing. From ForeWord Magazine (12/10/08): Networking is a big buzzword these days. People are joining networking Web sites and networking groups in the hopes of improving their career or social status, or simply expanding their social circle. Confessions of an Introvert: The Shy Girl's Guide to Career, Networking, and Getting the Most of Our Life helps women for whom networking and self-promotion don't come naturally. "[E]xtroverts gain energy from other people and introverts feel like they just get the energy sucked out of them by other people," author Meghan Wier writes. She is an expert on marketing and networking, and a self-proclaimed introvert. Wier insists that introverts can become charismatic speakers and great leaders. She helps readers along the way with sections on identifying sources of anxiety, building confidence in tough situations, becoming an expert in one's field, and organization. In order to make public speaking easier, she recommends that readers write down everything they dislike about speaking and why, then come up with actions that will offset each item.

The former Google executive, editorial director of Twitter and self-described introvert offers networking advice for anyone who has ever cancelled a coffee date due to social anxiety—about how to nurture a vibrant circle of reliable contacts without leaving your comfort zone. Networking has garnered a reputation as a sort of necessary evil in the modern business world. Some do relish the opportunity to boldly work the room, introduce themselves to strangers, and find common career ground—but for many others, the experience is often awkward, or even terrifying. The common networking advice for introverts are variations on the theme of overcoming or “fixing” their quiet tendencies. But Karen Wickre is a self-described introvert who has worked in Silicon Valley for 30 years. She shows you how to embrace your true nature to create sustainable connections that can be called upon for you to get—and give—career assistance, advice, introductions, and lasting connections. Karen’s “embrace your quiet side” approach is for anyone who finds themselves shying away from traditional networking activities, or for those who would rather be curled up with a good book on a Friday night than out at a party. For example, if you’re anxious about that big professional mixer full of people you don’t know, she advises you to consider skipping it (many of these are not productive), and instead set up an intimate, one-on-one coffee date. She shows how to truly make the most of out social media to sustain what she calls “the loose touch habit” to build your own brain trust to last a lifetime. With compelling arguments and creative strategies, this new way to network is perfect not only for introverts, but for anyone who wants for a less conventional approach to get ahead in today’s job market.
