Oracle E-Business Suite System Administrator's Guide...

An Oracle Database Administrator or DBA administers the data the various applications enter, update, delete, and use for company business. Ideally the system administrator should be someone from within the user group who knows how the system has been defined and can act as the first level of support for the application users. The system administrator role is clearly defined with a specific set of practical tasks to be carried out. The HRMS System Administrator For Oracle HRMS these practical ...
