But as Dominic Johnson argues in *Overconfidence and War*, states are no more rational than people, who are susceptible to exaggerated ideas of their own virtue, of their ability to control events, and of the future. By looking at this bias—called “positive illusions”—as it figures in evolutionary biology, psychology, and the politics of international conflict, this book offers compelling

Opponents rarely go to war without  
thinking they can win--and clearly,  
one side must be wrong. This  
conundrum lies at the heart of the so-  
called "war puzzle": rational states  
should agree on their differences in  
power and thus not fight.
