This book analyzes recent changes in institutional governance and management in higher education and their impact on the academy and academic work. It draws on findings from an international study based on a survey of academics in eighteen countries. It opens with a chapter outlining the key issues, drivers and challenges that inform contemporary discourse around academic work and the profession in general. It then focuses on national case studies, comparing changes in the top tier with the lower tiers of national systems, public and private institutions, and other differentiating factors appropriate in each country, which include mature and emerging higher education systems. It concludes by proposing a series of generalizations about the contemporary status of governance and management of institutions of higher education.

A gentle reminder, for the days you feel light in this world, and for the days in which the sun rises a little slower. A gentle reminder for when your heart is full of hope, and for when you are learning how to heal it. A gentle reminder for when you finally begin to trust in the goodness, and for when you need the kind of words that hug your broken pieces back together. A gentle reminder for when growth hangs heavy in the air, for when you need to tuck your strength into your bones just to make it to tomorrow. A gentle reminder for when you are balancing the messiness, and the beauty, of what it means to be human, when you are teaching yourself that it is okay to be both happy and sad, that you are real, not perfect. A gentle reminder for when you seek the words you needed when you were younger. A gentle reminder for when you need to hear that you deserve to be loved the way you love others. A gentle reminder for when you need to recognize that you are not your past, that you are not your faults. A gentle reminder for when you need to believe in staying soft, in continuing to be the kind of person who cares. A gentle reminder for when you need to believe in loving deeply in a world that sometimes fails to do so. A gentle reminder to keep going. A gentle reminder to hope--

Canadians often see politicians as little more than trained seals who vote on command and repeat robotic talking points. Politicians are torn by dilemmas of loyalty to party versus loyalty to voters. Whipped examines the hidden ways that political parties exert control over elected members of legislatures. Drawing on extensive interviews with politicians and staffers across Canada, award-winning author Alex Marland explains why Members of Parliament and provincial legislators toe the party line, and shows how party discipline has expanded into message discipline. This book exposes how democracy works in our age of instant communication and political polarization. Whipped is a must-read for anyone interested in the real world of Canadian politics.
