Following principles of communication make it more effective: 1. Principle of Clarity: The idea or message to be communicated should be clearly spelt out. It should be worded in such a way that the receiver understands the same thing which the sender wants to convey. There should be no ambiguity in the message.

Communication Theories: Some studies are
based on the influence of communication and
media on the human society. One of the
earliest studies in this group is:

Hypodermic/Bullet Theory: which relies on the
powerful principle of media and its consumers
are passive and naïve. Furthermore, it
states that messages passing through media
are like magic bullets which strikes the
audience as quickly as possible but also
