Programming in Objective-C 2.0. by Stephen G. Kochan. 3.85 · Rating details · 378 ratings · 15 reviews. Objective-C is an object-oriented computer programming language that is a superset of NASI C and provides classes and message passing similar to Smalltalk. It is the native programming language for Mac OS X Leopard as well as the iPhone and iPod Touch.

*Programming in Objective-C 2.0 by Stephen G. Kochan*

It brought me into programming Objective C in a week (I tried to learn C many years ago, but got nowhere)! It's seriously the best book I have ever read on the topic of programming. Kochan takes you through the fundamentals of Objective C programming in an easy and very straight-forward way.
