Previous Chapter Table of Contents Next Chapter. Chapter 1: Atoms, Molecules and Ions. Section 1.1: Introduction. In this course, we will be studying matter, "the stuff things are made of". There are many ways to classify matter. For instance, matter can be classified according to the phase, that is, the physical state a material is in. Depending on the pressure and the temperature, matter can exist in one of three phases (solid, liquid, or gas).
