One of our most beloved comedians, the brilliantly witty and outspoken star of *The View*, hits the most unpopular President ever elected where it hurts—and makes us laugh and cheer—in this hilarious alphabetical guide to everything that's wrong with the "Orange One," Donald Trump. Put down the knife, lock away the gun, lay aside the noose, Joy Behar is here to save you from suicide as she hot walks you through the next four years (two if we are lucky, less if liberal dreams come true). Besides despair, the sane response to the insanity in the White House is laughter. On her hit ABC daytime show *The View*, Joy has been blunt in her condemnation of the comb over-in-chief, and her words have electrified and inspired millions in the resistance for whom #notmypresident has become a rallying cry. answer to the hell that is the Trump Orange House. With a major network television profile and a social media audience in the millions, this fearlessly confident star has a powerful platform to entertain Americans of all stripes—from Never Trumpers to fired-up progressives—as she takes on the worst president since . . . well, since ever.

Winner of the 2020 Society of Professors of Education Outstanding Book Award Drawing on personal stories, research, and historical events, an esteemed educator offers a vision of educational justice inspired by the rebellious spirit and methods of abolitionists. Drawing on her life's work of teaching and researching in urban schools, Bettina Love persuasively argues that educators must teach students about racial violence, oppression, and how to make sustainable change in their communities through radical civic initiatives and movements. She argues that the US educational system is maintained by and profits from the suffering of children of color. Instead of trying to repair a flawed system, educational reformers offer survival tactics in the forms of test-taking skills, acronyms, grit labs, and character education, which Love calls the educational survival complex. To dismantle the educational survival complex and to achieve educational freedom—not merely reform—teachers, parents, and community leaders must approach education with the imagination, determination, boldness, and urgency of an abolitionist. Following in the tradition of activists like Ella Baker, Bayard Rustin, and Fannie Lou Hamer, *We Want to Do More Than Survive* introduces an alternative to traditional modes of educational reform and expands our ideas of civic engagement and intersectional justice.

According to the US Census Bureau's report on the number of college students in the United States, more than 500,000 high school seniors pack up and leave their homes for college each year, intent on starting the next level of their education. The freshman year of college is an initiation into independent living, but it can be incredibly stressful on someone who is not prepared. It is estimated that almost 150,000 students will dropout before starting their second year, and it is not always because of the angry professor or sub-par living conditions. Everything from the cost of living on your own to
