The Complete Stories announces its desire and its lie in the title; this is a book of shatter and loss. In his second collection, Noah Warren—previously selected by Carl Phillips for the Yale Series of Younger Poets—unravels histories both personal and public, picking apart their ugliness, beauty, and irreducible singularity. Clothed in broken forms, these poems of grieving and tentative joy ask finally how we can go forward with our own mottled pasts, into the futures we can't predict but for which we must bear responsibility.

This commemorative oversized volume of the complete collection of stories and poems of Lewis Carol showcases his ingenious use of word play, inverted logic and satire. Lewis Carroll was the pen name and, it could be claimed, the alter ego of the Reverend Charles Lutwidge Dodgson, a mathematician, writer and photographer. His creations, especially Alice's Adventures in Wonderland and Through the Looking Glass and What Alice Found There, have been translated into countless languages and are as loved now as they have ever been. His neologisms ("curiouser and curiouser") and turns of phrase have forever infiltrated and enriched our language and culture.
