Following two families from Pakistan and Iraq in the 1990s to San Francisco in 2016, *The Bad Muslim Discount* is an inclusive, comic novel about Muslim immigrants finding their way in modern America. "Masood's novel presents a stereoscopic, three-dimensional view of contemporary Muslim America: the way historical conflict in the Middle East lingers in individual lives, the way gossip travels in a close-knit immigrant community." --The New York Times Book Review

It is 1995, and Anvar Faris is a restless, rebellious, and sharp-tongued boy doing his best to grow up in Karachi, Pakistan. As fundamentalism takes root within the social order and the zealots next door attempt to make Islam great again, his family decides, not quite unanimously, to start life over in California. Ironically, Anvar's deeply devout mother and his model-Muslim brother adjust easily to life in America, while his fun-loving father can't find anyone he relates to. For his part, Anvar fully commits to being a bad Muslim. At the same time, thousands of miles away, Safwa, a young girl living in war-torn Baghdad with her grief-stricken, conservative father will find a very different and far more dangerous path to America. When Anvar and Safwa's worlds collide as two remarkable, strong-willed adults, their contradictory, intertwined fates will rock their community, and families, to their core. The

Bad Muslim Discount is an irreverent, poignant, and often hysterically funny debut novel by an amazing new voice. With deep insight, warmth, and an irreverent sense of humor, Syed M. Masood examines universal questions of identity, faith (or lack thereof), and belonging through the lens of Muslim Americans.

A direct counterpoint to fear mongering headlines about shariah law—a Muslim American legal expert tells the real story, eliminating stereotypes and assumptions with compassion, irony, and humor Through scare tactics and deliberate misinformation campaigns, anti-Muslim propagandists insist wrongly that shariah is a draconian and oppressive Islamic law that all Muslims must abide by. They circulate horror stories, encouraging Americans to fear the “ takeover of shariah ” law in America and even mounting “ anti-shariah protests ” . . . . with zero evidence that shariah has taken over any part of our country. (That ’ s because it hasn ’ t.) It would be almost funny if it weren ’ t so terrifyingly wrong—as puzzling as if Americans suddenly began protesting the Martian occupation of Earth. Demystifying Shariah explains that shariah is not one set of punitive rules or even law the way we think of law—rigid and enforceable—but religious rules and recommendations that provide Muslims with guidance in various aspects of life. Sumbul Ali-Karamali draws on scholarship and her degree in Islamic law to explain shariah in an accessible, engaging narrative style—its various meanings, how it developed, and how the shariah-based legal system operated for over a thousand years. She explains what shariah means not only in the abstract but in the daily lives of Muslims. She discusses modern calls for shariah, what they

mean, and whether shariah is the law of the land anywhere in the world. She also describes the key lies and misunderstandings about shariah circulating in our public discourse, and why so many of them are nonsensical. This engaging guide is intended to introduce you to the basic principles, goals, and general development of shariah and to answer questions like: How do Muslims engage with shariah? What does shariah have to do with our Constitution? What does shariah have to do with the way the world looks like today? And why do we all—Muslims or not—need to care?

Nadine Jolie Courtney's *All-American Muslim Girl* is a relevant, relatable story of being caught between two worlds, and the struggles and hard-won joys of finding your place. Allie Abraham has it all going for her—she 's a straight-A student, with good friends and a close-knit family, and she 's dating popular, sweet Wells Henderson. One problem: Wells 's father is Jack Henderson, America 's most famous conservative shock jock, and Allie hasn 't told Wells that her family is Muslim. It 's not like Allie 's religion is a secret. It 's just that her parents don 't practice, and raised her to keep it to herself. But as Allie witnesses Islamophobia in her small town and across the nation, she decides to embrace her faith—study, practice it, and even face misunderstanding for it. Who is Allie, if she sheds the fa çade of the “ perfect ” all-American girl?

Shirin Taber takes us from fears and false stereotypes and shows us a unique perspective of how North American Muslims live and think. The reader will uncover myths, learn to create friendships with Muslim,

neighbors and relationally show them Christ.

The American Dream is alive and well in this memoir of a Muslim immigrant from India who arrived planning to start a business, working so hard toward his personal goals that he even pumped gas and sold vacuum cleaners door to door. Victor Begg successfully built a thriving, regional chain of furniture stores. Along the way, he discovered that America's greatest promise lies in building healthy communities with our neighbors.

“ In one book, I have come to understand much more about Islam, its followers and its teachings,” Rabbi Bruce Benson writes in the book's Foreword. “ I've come to realize that the challenges Muslim immigrants have faced are similar to what Jews and many other immigrant groups have experienced as they tried to settle in America. By the end of this book, I hurt with Victor and I laugh with him, because—as Americans—we share so much. We are him. His journey is our journey. This is our story.” As Victor reached out to others, he used his entrepreneurial skills to co-found a new kind of ethnically diverse mosque as well as influential nonprofits designed to help others. Agreeing to serve as a regional spokesperson for Muslims, he got more than he bargained for—responding to tragedies that included 9/11 and a massacre in a Florida nightclub.

“ Person by person, friend by friend, good-hearted people change the world,” Victor writes in this memoir. His greatest talents turned out to be his ongoing ability to invite all of us to open our hearts, roll up our sleeves and reach out to help each other. “ We need stories of our Muslim neighbors like Victor Begg to break down the walls that separate us and to educate us about those who might seem so strange, at first, but might

become heart friends if given the chance,” writes the Rev. Daniel L. Buttry in the book’s Preface. “Along the way, we might discover some true American heroes. Victor is just such a hero: selfless, ordinary, but willing to risk to make our nation and our world a better place.” In this era when media outlets echo with extremist claims demonizing immigrants and Muslims, in particular, readers will discover how much American families share in our diversity of faiths and ethnicities. “A lot of foggy information clouds the American brain concerning Muslims. Victor’s representative story, his steady, 40-year love affair with America, blows much of it away,” writes Michael Wolfe, a filmmaker and author of *One Thousand Roads to Mecca*. “This book’s importance really is global, considering how often migrants, refugees and Muslims in particular are demonized by extremists around the world,” writes Larbi Mageri, a Muslim journalist based in Algeria who is a co-founder of the International Association of Religion Journalists. “One of the biggest challenges for Muslims who have never visited the U.S. is getting a clear sense of how Muslims live there in these turbulent times. There are so many conflicting claims and stories about life in the U.S. Through reading Victor’s true stories, I was able to experience American life for Muslims—without ever leaving my home. The lasting impression I am left with, after reading Victor’s memoir, is that anyone would be lucky to have a Muslim neighbor like this living next door.” Ultimately, Victor invites readers to pray with him: “God bless America.” As you follow him along this remarkable journey, as you catch his vision of a vibrant America—you are likely to find your own family and your own values mirrored in his story. You’re likely to
