A sociological look at the role of space in inequality. Sociologists have too often discounted the role of space in inequality. This book showcases a recent generation of inquiry that attends to poverty, prosperity, and power across a range of territories and their populations within the United States, addressing spatial inequality as a thematically distinct body of work that spans sociological research traditions.

The Sociology of Spatial Inequality - Google Books
Spatial inequality is an increasingly vital concept in urban sociology, capturing the inequitable allocation of resources across space.

The Sociology of Spatial Inequality | Request PDF
This book showcases a recent generation of inquiry that attends to poverty, prosperity, and power across a range of territories and their populations within the United States, addressing spatial inequality as a thematically distinct body of work that spans sociological research traditions. The contributors' various perspectives offer an agenda for future action to bridge sociology's diverse and often narrowly focused spatial and inequality traditions.

Project MUSE - Sociology of Spatial Inequality, The
"The editors provide the first overview of the state of spatially oriented research on inequality in sociology, which is much larger and encompassing than many people realize, spanning demography, human ecology, urban and community sociology, comparative sociology, as well as stratification."

The Sociology of Spatial Inequality: Lobao, Linda M ...
Spatial inequality is defined as inequality in economic and social indicators of wellbeing across geographical units within a country. There are two reasons why it should concern policymakers. First, inequality between a nation's regions is one component of overall national inequality across individuals.

The Sociology of Spatial Inequality by Lobao, Linda M ...
Spatial inequality is the unequal amounts of qualities or resources and services depending on the area or location, such as medical or welfare. Some communities have a greater range of resources and services and then those that would be able to change that do not live near or associate with those communities making it almost impossible to change this cycle.
