"240 lessons for all levels: book & video course."

(Guitar Educational). This book for both acoustic and electric guitarists is designed to be a handy guide to the two most important components of playing: chords and scales. More than just a reference, it will also help you understand how chords and scales are created, named and used, and how they are related to each other. Includes over 1,400 chord diagrams: major, minor, pentatonic, blues and diminished scales; and modes. Teaches how to understand intervals and build major, minor, augmented, diminished and extended chords.

We believe this to be the most complete and thorough book of its kind in print! the Scale Section contains major and minor scales in numerous forms and positions. the Arpeggio Section contains a multi- octave presentation of each chord-related arpeggio. the Chord Section presents carefully voiced, powerful-sounding chords in every key. In addition, chord spelling, chord notes, and scale tones are shown. A wealth of information for daily practice performance.

General Reference

This exhaustive study of chords and scales is a must-own for any improvising guitarist. Published in collaboration with one of America's leading guitar schools, it provides the practical information you need to use each scale in a solo. With each scale, you get an explanation of the scale and its uses, a fingering on one string, six-string fingerings in all keys in a cycle of 4ths, three-note per string fingerings, and a chord vamp to practice the scale over. Give your playing a unique edge with exotic scales from all over the world. This easy-to-use book even includes a section on how to practice scales. The Ultimate Guitar Chord & Scale Bible should be part of every guitarists library.

Going from the simplest scales such as the Minor Pentatonic through to the more complex such as Harmonic Minor and Melodic Minor scales this book uses 3-note-per-string and caged shapes to connect the different shapes across the whole fretboard. This book can be used simply as a reference point for shapes to play for certain scales/modes or to further develop your knowledge and practice routines to become the ultimate guitar player!
